As years flow by, many people enter our lives, some give us little, while others teach us things that will last our whole life through. One of these people teaches us everyday the love and concern we should show towards others. Although she is not a teacher she has taught that by giving love, we will receive love. Every afternoon we receive the lady that has become so much a part of our lives. She works brightening our hallways and classrooms. We often hear her calling and come to her. We talk, and she gives us everything she can. To the most beautiful lady we know, we give all our love, and dedicate the 1975-76 yearbook to PHOEBE DIX.

HELLO! DAY

"Only a bigot could design a game where we could only associate with our own color group."

*

"Someone should have warned us we were going to be getting dirty in the garden. Then we could have ruined our uniforms instead of our favorite clothes."

*

"You're supposed to use your arm, not your nose, to hit the volleyball."

*

"Of course I'm stepping on a plant... You said you wanted them pressed firmly into the ground."

*

"Is registration for classes really an appropriate activity for school?"

"It's too hot — Let's play volleyball with a water balloon instead."

✱

"Did you Hear . . . pst . . . pst . . . Mr. Evans is spreading rumors in the library."

✱

"Hey Turkey! You're supposed to hoe the weeds not the evergreens."

"From the mess everyone made, you'd think they didn't serve buns or forks with the sloppy-joes."

"Despite popular opinion, the Green group has not gone back to Mars. Only to Joe's."

"We had two kinds of Rock groups — one dug weeds and the other dug Steven Stills."

Interim Programs

They
The fox comes
on little cat feet.
It sits looking
over harbor and city
on silent haunches
and then moves on.

Carl Sandburg

The students this year had access to a broad range of ideas during the interim program. Some took advantage of the opportunity to experience the culture and environment of California. Others found themselves in the positions of teachers (quite a change) as volunteers with the Head Start Program or the Children's Center. A number of students enriched their knowledge of Utah History, debate, World War II, local plants and animals, law, theatre production, typing and dance. A dozen or so gained a few pounds in Gourmet Cooking. The students in Calligraphy will never write the same again. The reactions of the students to the largest interim program selection attempted here at Rowland Hall illustrate the program's worth.

Candids

Allen, Georgia

Way over yonder, is a place I have seen,
In a garden of wisdom, from some long ago dream.
Maybe tomorrow, I'll find my way;
To the land where the honey runs in the rivers each day.
And the sweet tasting good life is so easily found,
Way over yonder, that's where I'm bound.

The test of a first-rate intelligence is the ability to hold two opposed ideas in the

mind, at the same time, and still retain the ability to function.
Francis Scott Key Fitzgerald

Burgess, Carol

This is a Revolution! Women have lived
long enough under the Hierarchy of men, and
men under their own.

Gloria Steinem

As Woman, we are told
cry, moan for you
are cursed.

Achievement for you,
only a dream in
restricted bounds.

Time is our's
now, this is
the age of revolution.

Woman is now the
word.

Women we shall
now unite, paving
roads for our future,
for our daughters.

 Bokonon

There are some men
who should have mountains
to bear their names to time.

Grave-makers are not high enough
or green,
and sons go far away
to ease the fist
their father's hand will always seem.

I had a friend:
he lived and died in mighty silence
and with dignity,
left no book, son, or lover to mourn.

Nor is this a mourning-song
but only a naming of this mountain
on which I walk,
fragrant, dark, and softly white
under the pale of mist.
I name this mountain after him.

I think I could turn and live with animals,
they are so placid and self-contain'd . . .
They do not sweat and whine about their condition,
They do not lie awake in the dark and
weep for their sins,
They do not make me sick discussing their
duty to God,
Not one is dissatisfied, not one is demented
with the mania of owning things,
Not one kneels to another, nor to his
kind that lived thousands of years ago,
Not one is respectable or unhappy over
the whole earth.

Walt Whitman

Afoot and lighthearted I take to the open road.
Healthy, free the world before me,
The long brown path before me leading wherever I

Henceforth I ask not good-fortune, 'I myself am

Henceforth I whimper no more, postpone no more,

Done with indoor complaints, libraries, querulous

strong and content I travel the open road . . .

FALL FEST

Camping Trips

They will complain of physical hardship, these sons of pioneers. Not for long; once they rediscover the pleasures of actually operating their own limbs and senses in a varied, spontaneous, voluntary style, they will complain instead of crawling back into a car; they may even object to returning to desk and office and that dry-wall box on Mossy Brook Circle. The fires of revolt may be kindled — which means hope for us all.

The faculty (as usual) were an integral faction (fraction?) in school this year. Faculty participated in numerous activities as well as in their required classes. They contributed directly to student development through their interest in individual relationships (although we hesitate to hold them responsible for all our actions). We extend our deepest appreciation for their contributions to our experience.

Ask your grandfather

Seventy-five years ago, the stiff-collared gentleman on the left looked out of an advertisement in Munsey's Magazine.

The copy read as follows, "Make up your mind to have a becoming suit this Fall, one that will look right and feel right."

Shown here is one of the famous Hart Schaffner & Marx garments, worn by well-dressed and professional men in every large city in the United States. Look for the trademark inside the collar. A small thing to look for, a big thing to find."

With one minor change we are running it today. Today the trademark is on the inside breast pocket. Prices, we regret to say, are somewhat higher than in 1899, but the value, like the quality, is as firm as it was then.

Here is a truly amazing Bi-centennial idea: If one could arrange for a savings certificate of \$1776 at a rate of $7\frac{1}{2}\%$ compounded daily for a term of 100 years, he (or most likely his favorite heir) would be a multi-millionaire by the time of the Tri-centennial — since the original \$1776 would have grown to over \$3 $\frac{1}{2}$ million through the magic of compound earnings!!
